

# Integrated Care Fellows Development Programme

*In partnership between Health Education England East of England and the Integrated Care Academy at the University of Suffolk*

**September 2021 – August 2022**

Are you, or will you be, a First Five GP in September 2021, looking for a post-CCT fellowship year?

Are you a wider workforce primary care clinician working in your community?

Do you want to hone your skills in teamwork, leadership and innovation?

In the era of Integrated Care Systems do you want your CV to stand out?

**This programme will meet all those needs**

A fully funded programme by HEE EoE, inclusive of backfill, your experience will give you:

- An understanding of the system, leadership and you
- How to lead for outcomes
- How to build effective partnerships
- How to build an integration culture
- Time to think well and celebrate your achievements

A mixture of taught modules, practical interactive workshops, games and action learning sets.

Create and develop a real project in your system, working as part of a multidisciplinary trio of local, likeminded individuals.

Work with national experts, personal coaches, and facilitators.

Be supported through the programme by your system and project sponsors.
